

Taking Care - Inside the Property

Misplaced Keys

If you have misplaced your keys during business hours you may come to our office, and borrow our office set, these must be returned as soon as you have finished with them.

If you have misplaced your keys after hours, you may either call a locksmith to assist you back into the property which is at the tenants cost or contact your Property Manager who may deliver the keys if available.

IMPORTANT! Most modern window flyscreens can only be removed from the inside of the property. Attempting to remove them from the outside will result in damage to the flyscreen frame work, and will result in the flyscreen having to be repaired or replaced at your cost. This may cost more than what it would cost to have a locksmith attend the property to allow you access back in.

This flyscreen frame was damaged when the tenant had locked their keys inside and tried to take off the screen from the outside to get through the window!

Property Damage

If property damage has occurred you are obligated to let us know immediately, or on the next business day if occurring on a weekend or public holiday.

Noise/Disruption

It is important to note that the utmost care must be taken to ensure that you do not infringe on disrupting your neighbours with noise. Loud music, parties or otherwise can disrupt a neighbour's right to peace and the quiet enjoyment of their residence. In the case of units and apartments, particular care must be taken with respect to noise due to the close proximity of other properties, usually located on the other side of the wall. This also includes your obligation to ensure that your visitors are not disrupting neighbours when walking from your premises to their parked vehicles.

Air conditioners

Please, regularly clean any filters and intake vents to ensure there is no build up of dirt and dust, and that the unit is able to draw in air effectively, not hindering performance, or in the worse case scenario, causing the unit to breakdown resulting in costly repairs and/or replacement. Please also note that if an air conditioner breaks down due to filters and vents not being kept clean, costs to rectify the damage or even replace the unit might be charged to tenants.

Heaters

Please ensure any combustion heaters are kept clean of ash build up, and also ensure a protective mat is placed in front of the heater to protect against coals and ash falling out and singeing/damaging carpets or floors.

For other heaters, please ensure that no combustible or flammable material is placed on or near heaters to avoid a fire risk.

Pot Plants

Please keep pot plants outside the property at all times. Pot plants placed inside on hard surfaces, tiles and floors like lino, may leave a circular indent, stains and damage. Pot plants placed on carpet areas run the risk of carpet rot underneath, should moisture overflow or escape even with plates and containers placed underneath to attempt to prevent this.

Aquariums

Like pot plants, aquarium stands can leave rust marks to floors and can cause carpet rot if placed on carpets. Furthermore, if placed on carpets the weight of the aquarium filled with water may cause permanent indentations and damage in the base of the carpet pile.

Strict No Smoking Policy

All properties have a strict 'no smoking inside' policy. If tenants still choose to smoke inside the property they will be responsible for specialised cleaning and deodorising of the inside of the property to reduce and eliminate unpleasant smoke odours. This can easily run into the hundreds of dollars, and is charged to the tenant.

Tenant Painting

It is company policy that tenants do not paint any part of the property themselves. We have found in the past that some tenants have not painted the property to a professional standard, resulting in a professional painter being called in to rectify work. It is a policy that any painting can only be carried out by experienced, professional painters with our written permission unless otherwise arranged with the Owner and Agent.

Fixtures and Fittings

If you wish to install or remove any fixtures or fittings, you must request this beforehand in writing.

Smoke Alarms

Should you believe for any reason the smoke alarm(s) installed are not working or the batteries are not functioning, please let us know immediately. Protect your safety by being vigilant and report to us any issues, to ensure your safety in the case of a fire.

Picture Hooks

If you wish to install any new picture hooks, please let us know in writing what type of hooks you wish to use. Please assess the type of walls that are in the property, and the type of picture hooks that are suitable. We will let you know in writing before you are permitted to install appropriate picture hooks.

Washing Curtains

Most curtains and netting are machine washable but it is vitally important that this be established before any washing occurs. Drapes may only be suitable for dry cleaning, so please check all labels first. Sun damaged, brittle curtains or netting may disintegrate should they be machine washed, so it is best to check the strength of fabric by gently tugging on the material with your fingers. If the material easily pulls apart in your fingers, the material is unsuitable for washing.

House Cracking and Movement

Please let us know if you notice any cracks to walls, ceilings and movement. If cracks were in place when you moved in, please let us know if you notice them worsening or growing larger. Please either report these in writing or point them out to us at the routine inspection.

Wall Movement- cracking to walls and ceilings can create extensive damage. Be sure to report to us immediately should you notice any wall movement or cracks to walls or ceilings.

Termites

Termites will quickly eat through a property and can cause extensive damage. Signs like wood becoming brittle (doorways, skirting boards, wood roof beams etc). Sounding hollow when tapped or knocked and/or with the presence of mud deposits are the tell-tale signs of termites, other than obvious signs of seeing termites themselves. Another warning sign inside can be blistering/lifting paint to inside walls, as they are known to eat away the paper backing to gyprock walls, allowing the plaster to crumble away allowing the termites to come to the wall surface, staying just under the paint lining.

Wood lying around outside and even wooden furniture outside can attract and encourage them. Dripping outdoor taps next to the house can also cause damp and favourable conditions for termites to be attracted.

If you see any signs of termites, or termite damage please bring this to our attention immediately.

These mud deposits indicate active termites

Termites are small and very destructive! (Picture not to scale)

General Cleaning

It is expected that the property be kept reasonably clean, and this is also a tenancy agreement requirement.

Pay particular attention to:

- a) **Walls, switches, power points, skirtings, doors and doorways** - please keep these free from marks and dirty finger marks.
- b) **Cobwebs/dusting** - please remove cobwebs to windows, walls and ceilings. Keep vents dusted. Light fittings and ceiling fans - keep them dusted regularly.
- c) **Curtains/blinds** - keep these cleaned, dusted and also (if suitable) machine or dry clean curtains and netting on an annual basis, also check for any mould build up & clean as needed.
- d) **Windows/sills/window tracks and flyscreens** - keep regularly cleaned and dusted. Please note most modern windows are easily removed from their tracks by lifting the sliding window up at the bottom, and pulling this out for easy cleaning, clean any mould found in these areas on a regular basis.
- e) **Floors** - please keep regularly swept and mopped. Floors in the kitchen and wet areas may need to be scrubbed to keep surfaces, tiles and grouting looking clean.
- f) **Ventilation** - please ensure that all rooms are kept adequately ventilated to avoid problems associated with condensation, causing mould and possible health problems.
- g) **Wet Areas, bathroom, toilet and laundry grouting/tiles** - please ensure all tiles & shower screens are kept free from grime, soap scum and mould.

Carpet Cleaning

All carpets need to be cleaned on a six to twelve month basis, simply because of general living. The best time is after winter or at the end of a wet period.

We recommend professional carpet cleaning and we may permit the use of 'do-it-yourself' hire machines only during the tenancy. These machines lack the ability to adequately withdraw soapy water the machine may have squirted in. Sometimes it is tempting to not have the carpets cleaned on vacating because they have been used only minimally, and some rooms hardly used at all.

We liken this type of situation to borrowing a shirt. Even if we may have worn this for only an hour and not a full day, it is expected that it be returned clean. It is the same for carpets as the next tenants taking possession also need to have clean carpets so this expectation can be transferred to them.

On vacating please present a receipt to show the carpets have been professionally cleaned by any one of our preferred contractors.

Always use a professional carpet cleaner when vacating do not use 'do-it-yourself' hire machines.

In the Kitchen

Chopping Boards

Please ensure chopping boards are used on bench tops, so that bench tops are preserved from unnecessary cut marks and associated damage.

Bench-top Joins

Be on the lookout for joins in the bench-top that have gaps, and the surface laminate has started to bulge or lift at a join. Please let us know if this is starting to occur as this may indicate moisture has seeped into a join, and is swelling the chipboard wood underneath.

Unfortunately this separating join in the bench-top will greatly worsen over time due to swelling chipboard affected by moisture underneath!

Grouting/Tiling/Taps

Be sure that if you notice grouting or silicone sealing coming off/loose around any tiles near or around the taps and/or taps dripping/leaking to let us know by Maintenance request. If moisture should get in between tiles, this can damage the wall behind, and even seep into chipboard that is usually present in bench tops causing swelling and irreversible damage to the wood.

Oven and Stove Tops

Please ensure that stove tops, grillers and ovens are kept free of burnt on food. Food, crumbs and spills when left long enough become burnt on, blackened and carbonised, making them very difficult to remove.

Please use care when using scourers as these may scratch and damage enamel surfaces. When cleaning stoves/ovens use a spray-on oven cleaner. Be sure to read and follow the product instructions carefully, as even though these types of products are very effective, they tend to contain harmful caustic fumes and require rubber gloves to be worn at all times when using the product. Please also check that the product is suitable to the type of surface you are applying this to, as some surfaces like stainless steel may become permanently marred/stained using an oven cleaner.

This oven has baked on food and grease making it very difficult and costly to clean

Exhaust Fans/Vents and Range hoods

Please ensure any vents and range hood filters are kept clean.

Ensure the exhaust fan cover is clean and kept free of grime build up. From time to time these should be taken down and removed to be soaked in hot soapy water, and then scrubbed clean. Please use extreme caution when removing these.

Cupboards/Drawers

Most cupboards and drawers are lined with white lining, which is great for easy cleaning. However substances spilled like sauces will in time prove difficult to remove and may leave permanent stains. Cupboard shelving, doors, doorframes and inside drawers/cutlery tidies should be cleaned at least on an annual basis. Also keep food in sealable containers to avoid insects and vermin gaining access to food and breeding and also creating a disease risk from germs, faeces and urine. Also regularly check for any water leaks from sinks and/or basins.

Dishwashers

Dishwashers provided as part of your tenancy need to be cleaned on a regular basis, and any build up of food remains removed including any water and/or calcium stains. The correct cleaning products must be used.

In the Wet Areas- Bathroom, Toilet and Laundry

Shower Screens

If you notice cracking to glass in shower screens or shower doors please report this to us immediately. Wired shower screen glass can crack under thermal expansion (consistent hot and cold temperatures) where as toughened glass usually only cracks if impacted (hit by something). If the shower screen is cracked due to impact damage, this will in most cases need to be paid by the tenant.

Blocked sinks/drains

Should a sink or basin become blocked, first try a drain cleaning product like draino. Be sure to follow the product instructions carefully. If the sink or basin is still blocked after treatment, please let us know so we can arrange for a plumber to attend to the problem.

Foreign objects down drains

Please take care not to allow children to place toys or other items down drains. If your property has a septic tank system, please do not flush foreign objects like sanitary products down the toilet. Septic tank systems are not able to process this type of material.

If a plumber is employed by us to clear pipes, drains, basins or sinks and it is determined that the blockage was caused by something considered foreign, this expense will be billed to the tenant for payment.

Loose tiles

Should you notice loose tiles to walls, the shower recess or to tiles over the laundry trough etc, please be sure to let us know.

Wall water damage

Should you notice water damage to a wall adjacent to a shower recess, bathroom basin etc please let us know immediately. This can be identified by bubbling or peeling paint, or even water or mould marks to the flooring/carpet. This usually identifies either loose tiles or a broken/leaking pipe in the wall, and will need attending to immediately to prevent further damage from occurring.

Tell tale signs of a broken pipe/leaking water to a wall adjacent or inside/behind the wall

Taps leaking

Please report any taps leaking either from a tap head or tap handles. This includes washing machine taps. Sometimes washing machine taps will leak only when connected to automatic washing machine hoses as the tap water pressure exposes leakage in the taps.

Toilets leaking

Water trickling or leaking into the bowl from the cistern usually indicates a worn cistern washer and needs to be fixed by a plumber. Water left to trickle into the bowl continuously may inflate your water bill and therefore needs to be reported to us when noticed. Also leaking may occur to the tap behind the toilet.

Hot water system leaks

Should you notice the hot water service leaking from the valve or from the base of the unit please let us know. The leaking valve is usually fixable by a plumber, however water leaking from the base of a water storage unit usually indicates the unit has rusted through and may need replacement in the near future.

Taking Care - Outside the Property

Water Restrictions

It is important for you to be aware of what water restrictions are in place for the region. For up to date water restriction information please log onto www.watercorporation.com.au.

Watering Your Garden and Water Restrictions

Watering your lawns and gardens must be done within watering restrictions; however we insist that watering is conducted to the maximum allowed by the restrictions in place. What we do not want is watering not done at all because of a wrong belief that a total watering ban is in place. Watering is still required unless the current water restriction has banned all forms of watering.

Watering Systems

Please ensure that all watering systems are working properly, and are checked regularly throughout the tenancy to ensure they continue to work effectively. Watering systems can only be used should current water restrictions allow.

Weeding and Shrub Trimming

Weeding of gardens beds, inside lawns, paths, paving and other outside areas are the responsibility of the tenant. Trimming of bushes and shrubs in and around the garden are also the responsibility of the tenant.

Lawn Maintenance

Please ensure that lawns are regularly mowed and edged, keeping them neat and tidy. Should you wish to have someone regularly mow your lawn, let us know as we would be happy to recommend a service to you. This is at tenant cost unless otherwise stated in your lease agreement.

Supplied Hoses/Fittings

Supplied hoses, fittings and accessories must be kept in good condition and please ensure that everything is returned and in place upon vacating of the property, free of any damage.

Rubbish

Please ensure any rubbish is regularly removed from the property. This includes car parts, tyres and things like lawn clippings, drink bottles as well as other items that can easily be considered rubbish or general junk.

Formal household rubbish and waste must only be placed inside rubbish containers (i.e. wheelie bins) and removed weekly from the property, or otherwise as required. This cannot be allowed to accumulate.

Please log onto www.cleanaway.com.au/recycle:albany for details of bin collection for your area.

Oil Drillage

Any cars parked on driveways, under carports and garages must have a drip tray placed underneath. Only if the vehicle does not drip any oil at all is a drip tray not required. Please also note that any visitor's cars must be parked off the premises if they drip oil. Should oil drillage occur at anytime, this must be cleaned up immediately to prevent oil seeping in and permanently staining. Please note any permanent staining will result in compensation being charged to the tenant.

Parking on Lawns/Gardens

It is important that at no time can cars or any type of vehicle be parked on any lawns, gardens or any area not created for, or designated as a vehicle parking area. Damage to lawns, landscaping, reticulation and pipework can be costly. Engine oil drillage to gardens and lawns will also create permanent damage to the soil area, being costly to rectify. Any damage of this type will be charged to tenants in full.

Please do not park on lawns or garden areas. Also oil stains are difficult to remove from driveways. Prevention is always better than costly cleaning and repairing lawns and gardens!

Swimming Pools and Outdoor Spas

If the property you are renting has a swimming pool and spa please pay attention to the following.

Pool/Spa Cleaning

Pool/spa cleaning and maintenance, unless it is agreed that the landlord will be supplying a regular cleaning and maintenance service as per your tenancy agreement, this will be a tenant responsibility.

Please note that if regular cleaning does not occur by the tenant, high costs can be incurred to bring it back to its original clean state. If this occurs, this will be at tenant cost. It is also a tenant responsibility to ensure that the pool/spa is kept topped up with water, and must not empty the pool/spa without written approval from us.

Supply of Pool Chemicals

Supplying of pool treatment chemicals will be a tenant responsibility, at tenant cost.

Pool/Spa covers, accessories, equipment and pool furniture

It is the responsibility of the tenant to maintain and keep in good condition any accessories, cleaning and maintenance equipment. This also includes any outdoor/pool furniture supplied. Pool cleaning/equipment must be kept out of the sun and stored responsibly. Supplied pool/spa covers must be neatly rolled or folded up and stored away out of the weather when not in use to preserve its lifespan and usefulness.

Pool/Spa Fences and Gates

We must be notified immediately if fences and gates are not functioning correctly, and the gate fails to self-close promptly when opened. State pool/spa regulations must be kept at all times.

These regulations can be found at www.buildingcommission.wa.gov.au/bid/Pool_Barriers.aspx.

Pools and spas must be kept regularly clean at all times, unless a pool cleaning/maintenance service has been agreed to and provided by the landlord.

Pets at the Property - Right Expectations

Should the landlord have granted permission to keep pets as per your tenancy agreement and/or written and signed pet lease agreement, the following conditions apply for the duration of this tenancy, and any renewal or extension:

- a) **Yard Kept Clean** - keep the yard clean and free from animal faeces.
- b) **Rubbish Kept Cleared** - clean up any rubbish/items scattered by the pet.
- c) **Flea infestation** - in the event of any fleas or flea eggs being present as a result of the animal, Merrifield Real Estate will need arrange for flea fumigation of the property prior to and upon/after vacating the premises. This is at tenant cost.
- d) **No Pets Inside** - pets are not allowed inside the residence at any time.
- e) **Damage Rectification** - repair any damage to the premises caused by the animal, and will protect and immediately rectify any damage caused to garden irrigation systems and fittings.
- f) **Garden Damage** - replace plants or vegetation damaged or destroyed by the pet directly, or indirectly (ie. plants died because a garden irrigation system was damaged by the pet).
- g) **Additional Pets** - other than any pet listed above and approved by the owner, not keep any other animals of any kind on the rental premises, (even on a short-term or temporary basis), including dogs, cats, birds, fish, reptiles, or any other animals.
- h) **Temporary Pets** - the tenant will not harbour, substitute or "pet-sit" any other pet, and will remove any of the pet's offspring within 45 days of birth (should this occur).
- i) **Food and Water** - not to leave food for the pet outside the premises where it may attract other animals and/or insects (i.e. european wasps)
- j) **Bi-Laws and Local Council** - abide by all local, city or state laws, licensing and health requirements regarding pets, including vaccinations.
- k) **Disturbance and Noise** - the pet shall not cause any sort of nuisance or disturbance to neighbours. Noise, day or night, must not disturb others. You must do whatever is necessary to keep the pet from making noise that would annoy others, and will take steps to immediately rectify complaints made by neighbours or other tenants.

Failure to comply with these terms shall give the owner the right to revoke permission to keep the pet, and is also grounds for further action and possible eviction action.

Pets not permitted inside!

Unless otherwise agreed in writing, pets are not permitted inside the property at any time!

Irrigation and lawn damage caused by a pet

Doorway and flyscreen damage caused by a pet

Bond Changing Tenants

Should permission be granted for tenants to change/transfer during a tenancy agreement, then the outgoing tenant must liaise and arrange with the incoming tenant to be paid their share of the bond lodged. Please ensure that you then liaise with us for any transfer of names required on the original bond lodged with the bond authority.

Sub-Letting

Subletting is not permitted without written approval from us. This includes assigning the tenancy over to a third party, or allowing other occupants to move in without our express permission. Permission usually involves a formal application being completed and submitted by the prospective tenant/occupant.

Property for Residential Use Only

The property is for residential use and can only be used a place of dwelling unless otherwise agreed in writing by us. The property cannot be used for commercial, industrial or illegal purposes. The use of the property cannot breach local council zoning regulations and also cannot be in breach of the law.
